Hey Elizabeth.

I was able to access it. Thanks. I think the files get through, but they do add up quickly in our system. I think this will be fine. In the future, could u make sure u reference that its a PSD application the subject line so I open it up immediately. :-)

Thanks,
Katy

Orlando Utilities Stanton Center

Katy,

I am starting to send more of the copies of applications received here in Tallahassee to you electronically, but I'm not sure whether the size of the file is causing a problem getting through. I thought I'd experiment and see if you can access this scanned version of the Orlando Utilities Commission Stanton Energy Center Unit B Combined Cycle modification application by clicking on the link provided.

<http://arm-permit2k.dep.state.fl.us/psd/0950137/00002C1E.pdf>

If this works, I won't have to worry if large files don't get through to your account. If it doesn't, I can still attach the PDF files and send it to you that way. The modeling files will be FTP'd to your modeling staff by Debbie Nelson our meteorologist.

Please let me know.

Thanks!
