RE: Title V Air Operation Permit Renewal
Draft Permit Project No. 0990042-003-AV
Riviera Beach Power Plant, Palm Beach County, Florida.

Dear Ms. Vielhauer:

On behalf of the Audubon Society of the Everglades with more than 3,000 members in Palm Beach County, we are writing regarding the above referenced power plant.

We are aware of the fact that you can automatically issue a renewal permit for this facility because it was grandfathered many years ago. However, that is not good reason to issue a new permit. It was a bad decision then and a worse one in 2003.

The plant is located in Riviera Beach in a blighted area that is in the throes of re-development. The plant has contributed to area's current condition. But that is not all. The stacks spew smoke and soot to surrounding areas as well. Residents of West Palm Beach, Singer Island and Palm Beach Shores are all 'victims' of the plant as are surrounding marinas and docks with expensive boats and watercraft.

The results of this plant's unchecked controls besides the obvious dirt and filth include attendant health issues such as heart problems, asthma, emphysema, allergies of numerous varieties and cancers of various ilk. Depending on wind direction, Phil Foster Park located to the north of the facility, is a heavily used public facility visited by families with babies and young children as well as senior citizens; all of whom are susceptible to these types of health problems.

Florida Power and Light has not been a responsible or good corporate citizen. The company seems to think they do not have to adhere to rules and regulations. When asked to perform in an environmentally sound manner they ignore the people making the request as if they will suffer huge financial losses. This is a company that pays their executives million dollar salaries. This is a company that has an extremely high rate

Audubon Society of the Everglades
October 6, 2003 -Page 2

structure. This is a company that needs to become more responsible to their rate-payers in addition to their stockholders.

We respectfully request that this plant be demolished. However, if that cannot be done then we ask that Florida Power and Light be required to 'clean up their act.' We request that scrubbers be installed in order to provide cleaner air emissions at the stacks. We would also ask that Florida Power and Light be required to burn cleaner fuel and not the spent oil they are now using.

A recent article in The Washington Post referenced a report from the Office of Management and Budget in which the department pointed out all the positive results from enforcing the new rules and regulations of the Clean Air Act. It pointed out a reduction of emergency room visits, loss of time in the work place and premature deaths.

Florida Power and Light should be held to the same standards. The people of Palm Beach County deserve better treatment.

Thank you for the opportunity to comment.

Sincerely,

Leah G. Schad

Re: Public Notice of Intent to Issue Title V Air Operating Permit Renewal

Dear Scott:

Pursuant to rule 62-110.106 (5), F.A.C., this letter is to inform you that the required "Public Notice of Intent to Issue Title V Air Operating Permit Renewal" has been published for Florida Power & Light's Riviera Power Plant on August 26th, 2003. The proof of publication provided by the Palm Beach Post is attached.

If you have any questions or require additional information, please contact myself at phone number (561) 845-3154 or Gary Moncrief at (561) 845-3103.

Sincerely,

A handwritten signature in cursive script that reads "Jeff Smith".

BUREAU OF AIR REGULATION

NO. 7524669
PUBLIC NOTICE OF INTENT
TO ISSUE TITLE V AIR
OPERATION PERMIT
RENEWAL
Department of
Environmental Protection
Title V Air Operation Permit
Renewal
DRAFT Permit No.:
0990042-003-AV
Florida Power & Light
Company
Riviera Plant
Palm Beach County
The Department of Environ-
mental Protection (permit-
ting authority) gives notice
of its intent to issue a Title V
Air Operation Permit
Renewal to Florida Power & Light for their Riviera Plant
located at 200-300 Broad-
way, Riviera Beach, Palm
Beach County. The
applicant's name and
address are: Florida Power & Light Company Riviera
Plant; Mr. Rick Blomgren,
Plant Manager, 200-300
Broadway, Riviera Beach,
Florida 33408.
The permitting authority will
issue the PROPOSED
Permit, and subsequent
FINAL Permit, in accordance with the conditions of the
DRAFT Permit unless a
response received in accordance with the following
procedures results in a different decision or significant
change of terms or conditions.
The permitting authority will
accept written comments
concerning the proposed
DRAFT Permit issuance
action for a period of 30
(thirty) days from the date of
publication of this Notice.
Written comments should
be provided to the
Department's Bureau of Air
Regulation, 2600 Blair
Stone Road, Mail Station
#5505, Tallahassee, Florida
32399-2400. Any written
comments filed shall be
made available for public
inspection. If written com-
ments received result in a
significant change in this
DRAFT Permit, the permit-
ting authority shall issue a
Revised DRAFT Permit and
require, if applicable,
another Public Notice.
A person whose substantial
interests are affected by the
proposed permitting decision
may petition for an
administrative hearing in
accordance with Sections
120.569 and 120.57 of the
Florida Statutes (F.S.). The
petition must contain the
information set forth below
and must be filed (received)
in the Office of General
Counsel of the Department
of Environmental Protection,
3900 Commonwealth
Boulevard, Mail Station #35,
Tallahassee, Florida
32399-3000 (Telephone:
850/488-9730; Fax:
850/487-4938). Petitions
filed by any persons other
than those entitled to written
notice under Section
120.60(3), F.S., must be
filed within fourteen days of
publication of the public
notice or within fourteen
days of receipt of the notice
of intent, whichever occurs
first. Under Section
120.60(3), F.S., however,
any person who asked the
permitting authority for
notice of agency action may
file a petition within four-
teen days of receipt of that
notice, regardless of the
date of publication. A peti-
tioner shall mail a copy of the
petition to the applicant at
the address indicated
above, at the time of filing.
The failure of any person to
file a petition within the
applicable time period shall
constitute a waiver of that
person's right to request an
administrative determina-
tion (hearing) under Sec-
tions 120.569 and 120.57,
F.S., or to intervene in this
proceeding and participate
as a party to it. Any subse-
quent intervention will be
only at the approval of the
presiding officer upon the
filing of a motion in compli-
ance with Rule 28-106.205
of the Florida Administrative
Code (F.A.C.).
A petition that disputes the
material facts on which the
permitting authority's action
is based must contain the
following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known.
- (b) The name, address and telephone number of the petitioner, name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how petitioner's substantial rights will be affected by the agency determination.
- (c) A statement of how and when the petitioner received notice of the agency action or proposed action.
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so state.
- (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle petitioner to relief.
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available for this proceeding.

In addition to the above, pursuant to 42 United States Code (U.S.C.) Section 7661d(b)(2), any person may petition the Administrator of the EPA within 60 (sixty) days of the expiration of the Administrator's 45 (forty-five) day review period as established at 42 U.S.C. Section 7661d(b)(1) to object to issuance of any permit. Any petition shall be based only on objections to the permit that were raised with reasonable specificity during the 30 (thirty) day public comment period provided in this notice, unless the petitioner demonstrates to the Administrator of the EPA that it was impracticable to raise such objections within the comment period or unless the grounds for such objection arose after the comment period. Filing of a petition with the Administrator of the EPA does not stay the effective date of any permit properly issued pursuant to the provisions of Chapter 62-213, F.A.C. Petitions filed with the Administrator of EPA must meet the requirements of 42 U.S.C. Section 7661d(b)(2) and must be filed with the Administrator of the EPA at: U.S. EPA, 401 M Street, S.W., Washington, D.C. 20460.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through

Friday, except legal

holidays, at:

Dear Mr. Sheplek,

Per our conversation, please forward the affidavit of proof, regarding the public hearing notice for the "Title V Operation Permit" for the Riviera Beach Power Plant, that was or is going to be published in the local newspaper.

Please note the specific date and section in which the notice was published.

Thank you.

Sincerely,

Anda Sanders
