Re: Bio-Oil Test Burn Air Construction Permit
P.L. Bartow Power Plant
Facility ID No. 1030011

Dear Mr. Read:

Progress Energy agrees to extend the June 23, 2008 deadline, waiving the department's requirement to issue a draft permit within 90 days for the above referenced Bio-Oil Test Burn Permit at the P.L. Bartow Power Plant in St. Petersburg, Florida.

In order to allow both parties time to resolve issues with the construction permit, Progress Energy agrees to extend the draft permit development until July 31, 2008.

If you have any questions, please feel free to contact me at (727) 820-5962 or Chris.Bradley@pgnmail.com. Thank you very much for your assistance with this construction permit.

Sincerely,

A handwritten signature in black ink that reads 'Chris Bradley'.

Chris Bradley
Senior Environmental Specialist
