Re: Request for Additional Information Regarding Title V Renewal Application
Permit No. 1030013-006-AV
Phillips Station
Highlands County

Dear Mr. Karp:

On January 9, 2009, the Department received your application for a Title V renewal permit for the Phillips Station. The application is incomplete. In order to continue processing your application, the Department will need the additional information requested below pursuant to Rule 62-213.420(1)(b)3., F.A.C., and Rule 62-4.070(1), F.A.C. Should your response to any of the items below require new calculations, please submit the new calculations, assumptions, reference material and appropriate revised pages of the application form.

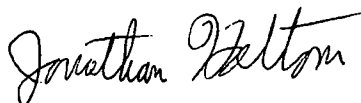

1. The facility's current Title V permit, No. 1030013-004-AV, included three (3) relocatable diesel generators that did not appear to have been included in the renewal application. These generators were previously permitted under facility ID No. 7775047 and construction permit No. AC 09-202080.
 - a) Please specify if you still own these specific relocatable generators.
 - i. If Progress Energy still owns these relocatable diesel generators, they need to be included in the facility's permit. Please provide us a letter stating 1) Progress Energy still owns these generators, and 2) the generators should be included in the Title V renewal application and permit. The letter must be accompanied by a Responsible Official (RO) certification page from DEP Form No. 62-210.900, pursuant to Rule 62-213.420(1)(b)1, F.A.C.
 - ii. If Progress Energy no longer owns these generators, then they do not need to be in the permit. Note: The applicable regulations in the facility's Title V permit are for these *specific* relocatable generators and do not apply to any other generator.
 - b) If Progress Energy has or wants to use relocatable generators other than the *specific* generators previously permitted, Progress Energy will need to submit a construction application.

David Karp
March 3, 2009
Page 2 of 2

The Department must receive a response from you within 90 (ninety) days of receipt of this letter, unless you (the applicant) request additional time under Rule 62-213.420(1)(b)5., F.A.C.

If you should have any questions, please call Susan Machinski, Engineering Specialist IV, at 239/332-6975, ext. 109.

Sincerely,

Jonathan Holtom, P.E., CPM
Title V Program Administrator
Bureau of Air Regulation

Dear Mr. Karp,

Attached is a corrected version of the request for additional information that now references the Bayboro Power Plant in Pinellas County. I apologize for the confusion. Please do not hesitate to contact me if you have any questions.
