PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT
Florida Department of Environmental Protection
Division of Air Resource Management, Office of Permitting and Compliance
Draft Air Permit Modification No. 1030117-010-AC / PSD-FL-420A
Pinellas County Resource Recovery Facility
Pinellas County, Florida

Applicant: The applicant for this project is the Pinellas County Environment and Infrastructure Department. The applicant's authorized representative and mailing address are: Mr. Robert J. Hauser, Director, Solid Waste Division, 3095 114th Avenue North, St. Petersburg, Florida 33716.

Facility Location: The existing Pinellas County Resource Recovery Facility is owned by Pinellas County and is operated by GCS Energy Recovery of Pinellas, Inc. This existing facility is located in Pinellas County at 3001 110th Avenue North in St. Petersburg, Florida. The facility consists of a municipal solid waste (MSW) landfill, three nominal 1,050 tons per day (tons/day) municipal waste combustors (MWC) and ancillary equipment.

Project: On November 19, 2012, the Department issued air construction permit 1030117-009-AC (PSD-FL-420) to the County pursuant to Rule 62-212.400, Florida Administrative Code (F.A.C.), Prevention of Significant Deterioration (PSD). The PSD permit addressed an earlier Facility Improvement Project consisting of: MWC furnace tube, stoker grate and air preheater replacements and improvements to the MWC air pollution control and monitoring systems. Additional work was authorized by the permit on the furnaces, auxiliary burners and MWC air pollution control equipment. Best Available Control Technology (BACT) determinations were conducted for sulfur dioxide (SO2), MWC-acid gases including SO2 and hydrogen chloride (HCl), carbon monoxide (CO), particulate matter with a mean diameter of 2.5 microns or less (PM2.5) and visible emissions (opacity). The expiration date of the permit is December 31, 2013.

On December 2, 2013, the Department received a request from the County to extend the expiration date of Air Construction permit No. 1030117-009-AC (PSD-FL-420) from December 31, 2013 to December 31, 2016. According to the application, the County wants to ensure that it has sufficient time to conduct additional testing, implement improvements to the facility's air pollution control systems; and complete certain projects to be identified during an ongoing procurement project. Details of the request and justification provided in the application and the Department's Technical Evaluation and Preliminary Determination.

The Department will extend the expiration date as requested by the County, as well as the date by which the County must apply for a Title V Operation Permit. The limits established by the BACT determinations already apply and will continue to apply.

Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210 and 62-212, F.A.C.
