Re: Tampa Electric Company (TEC)  
Polk Power Station  
Part 1 MACT Application  
Permit No. 1050233-009-AV

Dear Mr. Neeley and Ms. Phillips:

Please find enclosed Part 1 of the two-part 112(j) permit application. TEC understands that the Environmental Protection Agency finalized amendments on April 5, 2002 to allow this two-part application process, and that the Department of Environmental Protection is acting to incorporate by reference these amendments at its earliest opportunity. As indicated in your letter dated April 5, 2002, TEC is submitting Part 1 by May 15, 2002.

Based on the information available to the company at the time of this application, TEC believes that Polk Power Station is not subject to section 112(j) of the Clean Air Act. This facility is not a major source of Hazardous Air Pollutants (HAPs). However, TEC reserves the right to amend or withdraw this application should we obtain new or different information regarding our status.

If you have any questions or comments, please contact Raiza Calderon or me at (813) 641-5261.

Sincerely,

Laura R. Crouch

Re: 112(j) Notification Information Submittal for  
Polk Power Station, Facility ID 1050233

Dear Ms. Crouch:

Thank you for submitting the referenced information in your letter dated May 14, 2002. Since your letter states that this facility is not a major source of HAPs, Section 112(j) does not apply to this facility, and no submittal was required.

Please be aware that, although your letter refers to this information submittal as a "Part 1 Title V Application," the Department does not recognize your submittal as state permit application and has no plans to process it as such.

No further 112(j) information is needed from you at this time.

If you have any questions, please call me at 850/921-9534.

Sincerely,

Cindy L. Phillips, P.E.
