Subject Title V Air Operation Permit Revision No. No. 1050233-028-AV, Tampa Electric Company (TEC), Polk Power Station (PPS)

Attached for your review is the Final Title V Air Operation Permit revision for the PPS which is located in Polk County at 9995 State Route 37 South in Mulberry, Florida. Briefly, the purpose of this permitting project is to revise the existing Title V air operation permit for the above referenced facility to reflect changes made in previously issued air construction permits. The construction permit modifications are contained in Permit No. 1050233-029-AC (PSD-FL-194J) for Unit 1 (the IGCC Plant) at the PPS, while the changes pertaining to Units 2 to 5 at the PPS were addressed in Permit No. 1050233-032-AC (PSD-FL-263B and PSD-FL-363C).

TEC did not provide comments on Air Construction Permit No. 1050233-032-AC (PSD-FL-263B and PSD-FL-363C). On October 22, 2012, TEC provided comments to the Department addressing Air Construction Permit No. 1050233-029-AC (PSD-FL-194J) and the Title V Air Operation Permit No. 1050233-028-AV. The comments regarding the Title V Air Operation Permit No. 1050233-028-AV were related to the underlying construction permit comments and the associated requested changes to permit language. These

changes were made where appropriate.

I recommend your approval of the attached final permit package.
