**Re: Administrative Change of Title V Permit No.: 1270009-001-AV,  
Facility ID No.: 1270009, Sanford Power Plant,  
E.U. ID No. 004, "C" & "D" Fuel Oil Storage Tanks**

Dear Mr. Fancy:

This letter is to advise your office that Fuel Oil Storage Tanks, "Tank C, 55,000 barrel No.6 fuel oil, pre-NSPS", and "Tank D, 100,000 barrel No. 6 fuel oil, pre-NSPS", have been demolished and are no longer capable of fuel storage as of the end of November, 1999.

- FPL requests an administrative change to the Permit to delete the reference to the tanks from Page U1 (of 1), Brief Description of Emission Units and/or Activity. [Attachment No.1].

Future AOR emission calculations will also reflect the absence of these tanks.

Thank you for your assistance in this matter, and, if you should have any questions, please do not hesitate to contact Kevin Washington at (561) 691-2877.

Very truly yours,

Roxane Kennedy

**Appendix U-1, List of Unregulated Emissions Units and/or Activities**

**Unregulated Emissions Units and/or Activities.** An emissions unit which emits no "emissions-limited pollutant" and which is subject to no unit-specific emission limiting standard, though it may be subject to regulations applied on a facility-wide basis (e.g., unconfined emissions, odor, general opacity) or to regulations that require only that it be able to prove exemption from unit-specific emissions or work practice standards.

The below listed emissions units and/or activities are neither 'regulated emissions units' nor 'exempt emissions units'.
