RE: Project No. 129001-008-AC
Sam O Purdom Generating Station
Bart Applications

Dear Mr. Koerner:

We are in receipt of your letter dated March 1, 2007 concerning the City's plans to retire Purdom Unit 7 no later than December 31, 2013. Your understanding is correct that the City plans on retiring this unit from service no later than December 31, 2013.

Please advise if you have any questions.

Yours truly,

Robert E. McGarrah
Manager Power Production

Re: Project No. 1290001-008-AC
Sam O. Purdom Generating Station
BART Application

Dear Mr. McGarrah:

On January 31, 2007, we received your application for Best Available Retrofit Technology (BART) for Unit 7 in accordance with Rule 62-296.340, Florida Administrative Code (F.A.C.). On February 14, 2007, we received a facsimile of an earlier letter dated January 24, 2007 indicating your intent to comply with the BART requirements by shutting down Unit 7 before December 31, 2013. Currently, it is your tentative plan to shutdown Unit 7 by March of 2011. Based on this information, the Department intends to issue a federally enforceable permit requiring the permanent shutdown of Unit 7 on or before December 31, 2013. If your plans to permanently shut down Unit 7 change, you must take the following actions before December 31, 2013: submit a BART application; obtain an air construction permit authorizing the BART control strategies; implement the BART control strategies; and demonstrate compliance with the BART standards.

If this is not your intent, please contact me by March 15th. Otherwise, we will proceed accordingly. If you have any questions, please contact me at 850/921-9536.

Sincerely,

Jeffery F. Koerner, Administrator
Permitting North Section
Bureau of Air Regulation
