

## **Appendix I-1, List of Insignificant Emissions Units and/or Activities.**

Owen Joist Corp.,  
A Division of CMC Steel Fabricators  
SMI Joist of Florida, Inc.

**DRAFT Permit No.:** 0070016-009-AV

**Facility ID No.:** 0070016

---

The facilities, emissions units, or pollutant-emitting activities listed in Rule 62-210.300(3)(a), F.A.C., Categorical Exemptions, are exempt from the permitting requirements of Chapters 62-210 and 62-4, F.A.C.; provided, however, that exempt emissions units shall be subject to any applicable emission limiting standards and the emissions from exempt emissions units or activities shall be considered in determining the potential emissions of the facility containing such emissions units. Emissions units and pollutant-emitting activities exempt from permitting under Rule 62-210.300(3)(a), F.A.C., shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if they are contained within a Title V source; however, such emissions units and activities shall be considered insignificant for Title V purposes provided they also meet the criteria of Rule 62-213.430(6)(b), F.A.C. No emissions unit shall be entitled to an exemption from permitting under Rule 62-210.300(3)(a), F.A.C., if its emissions, in combination with the emissions of other units and activities at the facility, would cause the facility to emit or have the potential to emit any pollutant in such amount as to make the facility a Title V source.

The below listed emissions units and/or activities are considered insignificant pursuant to Rule 62-213.430(6), F.A.C.

### Brief Description of Emissions Units and/or Activities

1. (2) 55-Gallon Waste oil tanks (VOC emissions are collectively less than 1 ton per year).
2. (2) 500-Gallon Diesel Fuel Storage Tanks (for Fork Trucks).
3. (1) 500-Gallon Gasoline Storage Tank.
4. Propane office heater emissions (space heating)
5. Pressurized Argon/CO<sub>2</sub> storage tank.
6. (1) Pressurized propane storage tank.
7. Paint and solvent Tote and Drum Storage
8. Sandblasting of Joists Outdoors. Only conducted when wind speed (verified by hand-held wind meter) is less than 5 miles per hour.
9. Gas Metal Arc Welding (PM-10 emissions).
