

Appendix I-1 List of Insignificant Emissions Units and/or Activities.

The facilities, emissions units, or pollutant-emitting activities listed in Rule 62-210.300(3)(a), F.A.C., Categorical Exemptions, are exempt from the permitting requirements of Chapters 62-210 and 62-4, F.A.C.; provided, however, that exempt emissions units shall be subject to any applicable emission limiting standards and the emissions from exempt emissions units or activities shall be considered in determining the potential emissions of the facility containing such emissions units. Emissions units and pollutant-emitting activities exempt from permitting under Rule 62-210.300(3)(a), F.A.C., shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if they are contained within a Title V source; however, such emissions units and activities shall be considered insignificant for Title V purposes provided they also meet the criteria of Rule 62-213.430(6)(b), F.A.C. No emissions unit shall be entitled to an exemption from permitting under Rule 62-210.300(3)(a), F.A.C., if its emissions, in combination with the emissions of other units and activities at the facility, would cause the facility to emit or have the potential to emit any pollutant in such amount as to make the facility a Title V source.

The below listed emissions units and/or activities are considered insignificant pursuant to Rule 62-213.430(6), F.A.C.

Brief Description of Emissions Units and/or Activities

1)	Auto Services
2)	Battery Stations
3)	Abrasive Blasting Operations
4)	Can Puncturing Devices
5)	Cleaning Operations
6)	Mixing/Coating Operations, including the emissions from the air drying of empty cans and excess two-part epoxy paints or inorganic zinc convertible coatings prior to their disposal
7)	Flare Stacks
8)	Local Exhaust Ventilations
9)	Facility Support System
10)	Ovens/Dryers
11)	Sewage/Wastewater Treatment
12)	Storage Tanks
13)	Vacuum Systems
14)	Remediation Activities
15)	Architectural and Industrial Maintenance Coatings
16)	Home and comfort heating
17)	Steam cleaning equipment
18)	Sanders (belt or drum having a total sanding surface of five square feet or less and other equipment used exclusively on wood or plastics or their products having a density of 20 pounds per cubic feet or more
19)	Space Heating equipment (excluding boilers)
20)	Laboratory equipment used exclusively for chemical or physical analyses
21)	Brazing, soldering or welding equipment
22)	Fire and safety equipment
23)	Surface coating operations using only coatings containing less than 5.0 percent VOC or

	HAP by volume.
24)	Petroleum lubrication systems
25)	Application of fungicide, herbicide, or pesticide.
26)	Non-halogenated solvent cleaning operations using solvents containing less than 5% HAP
27)	Vehicle fueling operations and associated fuel storage
28)	Restaurants
29)	Relocatable screening-only operations
30)	Fugitive emissions
31)	Distillation equipment with PTE < 5 tpy (e.g., vertrell still)
32)	Controlled burning
33)	Boilers with heat input rating of less than 10 MMBtu/hr fired by natural gas, liquefied propane (LP) gas, Number 2 fuel oil, diesel fuel, bio-diesel, or synthetically derived fuels.
34)	Landscaping equipment
35)	Construction activities
36)	Asbestos renovation and demolition activities
37)	Natural gas-fired compressor for compressed natural gas (CNG) fueling operations
38)	Parachute dryer
39)	Cable fabrication operations
40)	Photographic processing labs, including x-ray processing
41)	Waste water treatment operations
42)	Application of identification numbers
