

## **PRECAUTIONS TO PREVENT UNCONFINED PARTICULATE MATTER**

Unconfined particulate matter emissions from yard operations, loading/unloading and/or materials handling operations will be controlled using reasonable precautions. Reasonable precautions may include, but are not limited to:

- Reduced speed for vehicular traffic.
- Use of dust suppressants or wetting agents.
- Use of paving or other asphaltic materials.
- Removal of particulate matter from paved roads and/or other paved areas by vacuum cleaning or wetting prior to sweeping.
- Covering of trucks, trailers, front end loaders and other vehicles or containers to prevent spillage of particulate matter during transport.
- Use of mulch, hydro seeding, grassing and/or other vegetative ground cover on barren areas to prevent or reduce particulate matter from being windblown.
- Use of hoods, fans, filters and similar equipment to contain, capture and vent particulate matter.
- Enclosure or covering of conveyor systems.
- Sprinkling or otherwise wetting of conveyor systems.
