Yes -- there was a Federal Register error in the HCl testing schedule and fugitive ash testing schedule. It will be corrected in the future. If more detail is needed on this issue, please call.

Dear Mr. Stevenson:

I understand that there was a scrivener's error in the code of federal regulations (CFR) regarding the performance testing change from the May 10, 2006 federal amendments. A few consultants have brought this to my attention (please see the attached letters regarding the testing change). It seems the intent in the federal register (page 27326) was for the testing change to apply to HCL and fugitive ash emissions as well. I am rolling the May 10, 2006 federal amendment changes into Title V permits here in Florida. Was this in fact an error?

Thank you in advance for your reply.

Sincerely,
