Section I. Facility Information.

Subsection A. Facility Description.

This facility consists of a municipal solid waste disposal facility (landfill). Although the landfill has had Tier 2 testing conducted that demonstrates that an active gas collection and control system is **not** currently required under 40 CFR 60, Subpart WWW, the county voluntarily constructed an active gas collection system on completed portions of the Class I landfill including the top and the side slopes (excluding the eastern slope) of Segment 1 and the southern and the eastern slopes of Segment 2. The active collection system terminates with a blower followed by a flare. This construction was permitted through the Department's Central District Solid and Hazardous Waste Program (permit number SO31-0128769-004 as modified by SO31-0128769-005).

Also included in this permit are miscellaneous insignificant emissions units and/or activities.

Based on the Title V Air Operation Permit Renewal application received December 27, 2006, this facility is **not** a major source of hazardous air pollutants (HAPs).

Subsection B. Summary of Emissions Unit ID No(s). and Brief Description(s).

<u>E.U. ID No.</u>	<u>Brief Description</u>
