Re: Permit Nos. 0770010-020-AV and 0770010-021-AC
Hosford OSB
Air Construction Permit Revision and Renewed Title V Air Operation Permit

Dear Mr. Temples:

Enclosed is the permit package for an air construction permit revision and a renewed Title V air operation permit for Hosford OSB. This existing facility is located in Liberty County, at 12995 Highway 65 North, in Hosford, Florida 32334. The permit package includes the following documents:

- The draft air construction permit and supporting technical evaluation and preliminary determination document.
- The statement of basis, which summarizes the facility, the equipment and the primary rule applicability for the initial Title V air operation permit.
- The draft/proposed renewed Title V air operation permit, which includes the specific permit conditions that regulate the emissions units covered by the proposed project.
- The Written Notice of Intent to Issue Air Permits provides important information regarding: the Permitting Authority's intent to issue air permits for the proposed project; the requirements for publishing a Public Notice of the Permitting Authority's intent to issue air permits; the procedures for submitting comments on the draft/proposed permits; the process for filing a petition for an administrative hearing; and the availability of mediation.
- The Public Notice of Intent to Issue Air Permits is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project. The Public Notice of Intent to Issue Title V Air Permits must be published as soon as possible and the proof of publication must be provided to the Department within seven days of the date of publication. Because this permit is being processed as a combined draft/proposed permit in order to reduce processing time, a duplicate copy of the proof of publication must also be transmitted by electronic mail within seven days of the date of publication to both Ms. Natasha Hazziez and Ms. Ana Oquendo at EPA Region 4 at the following address: hazziez.natasha@epa.gov and hazziez.natasha@epa.gov.

If you have any questions, about the enclosed permitting package or if you wish to submit comments regarding the draft permit during the comment period, please contact the project engineer, Deborah Moore, by telephone at (850) 595-0624, or by email Deborah.L.Moore@dep.state.fl.us.
