INITIAL THE V MARK

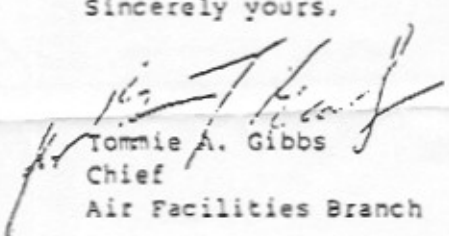

Dear Mr. Woolley:

Your letter of September 26, 1980 requesting a modified sampling schedule for the Jay Saltwater Disposal Turbines fuel gas has been reviewed by our staff and we have determined that a monthly sampling and analysis schedule is approvable with the following conditions:

- 1) Records shall be kept for all monthly analyses performed on the turbine fuel gas pursuant to 40 CFR 60.7(d).
- 2) All monthly samples containing sulfur in excess of 0.10 weight percentage shall be reported to EPA pursuant to 40 CFR 60.7(c).

If you have any questions concerning this determination, please contact us at 404/881-4552.

Sincerely yours,

Tommie A. Gibbs
Chief
Air Facilities Branch
