Re: DEP File No. 1130168-007-AV  
Santa Rosa Energy, LLC – Santa Rosa Energy Center  
Facility ID: 1130168

Dear Mr. Hill:

On June 28, 2007, the Department received an application for a Title V Air Operation Permit Renewal for the Santa Rosa Energy, LLC – Santa Rosa Energy Center, located at 5001 Sterling Way, Pace, Santa Rosa County. Enclosed are the following documents: “Statement of Basis”, “DRAFT Permit”, “Written Notice of Intent to Issue Title V Air Operation Permit”, and “Public Notice of Intent to Issue Title V Air Operation Permit”.

The “Statement of Basis” summarizes the Permitting Authority’s technical review of the application and provides the rationale for making the preliminary determination to issue a DRAFT Permit. The proposed “DRAFT Permit” includes specific conditions that regulate the emissions units at this facility. The “Written Notice of Intent to Issue Title V Air Operation Permit” provides important information regarding: the Permitting Authority’s intent to issue a Title V air operation permit (DRAFT Permit); the requirements for publishing a Public Notice of the Permitting Authority’s intent to issue the DRAFT Permit; the procedures for submitting comments on the DRAFT Permit; the requirements for requesting a public meeting; the requirements for filing a petition for an administrative hearing; and the availability of mediation. The “Public Notice of Intent to Issue Title V Air Operation Permit” is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project.

If you have any questions, please contact the Project Engineer, Syed Arif, at 850-921-9528.

Sincerely,

Trina L. Vielhauer, Chief  
Bureau of Air Regulation
