Florida Production Engineering  
Ormond Beach Facility  
Facility ID No.: 1270102  
Volusia County

Title V Air Operation Permit Revision  
PROPOSED Permit Project No.: 1270102-009-AV  
Revision to Title V Air Operation Permit No.: 1270102-006-AV

The initial Title V Air Operation Permit, No. 1270102-001-AV, was issued/effective on March 5, 1998. This Title V Air Operation Permit Revision is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and Florida Administrative Code (F.A.C.) Chapters 62-4, 62-210 and 62-213. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents, attached hereto or on file with the permitting authority, in accordance with the terms and conditions of this permit.

The subject of this permit revision is to incorporate the terms and conditions of Air Construction Permit, No.: 1270102-008-AC, to limit Hazardous Air Pollutant (HAP) emissions to less than 25 tons/yr. (total), and 10 tons/yr. (individual).

This facility consists of wheel cover manufacturing operations and airbag cover manufacturing operations. The wheel cover manufacturing operations include manufacturing cells no. 1, 2, 3, 4, 5, 12, and Deco Manufacturing Cell. Each wheel cover manufacturing cell includes paint spraying and paint drying. Each paint spray booth is equipped with paint filters to control particulate emissions. The air bag cover manufacturing operations include manufacturing cells A, B, C, D and E. Each air bag cover manufacturing cell contains two promoter spray booths, two topcoat spray booths, and one gas-fired curing oven.

The applicable emission limitations and emission limiting standards are as follows:

- a) VOC (Volatile Organic Compound) emission limit of less than 249 tons/yr. per construction permits No.: 1270102-004-AC and No.: 1270102-008-AC.
- b) HAP (Hazardous Air Pollutant) emission limit of less than 25 tons/yr. (total) and 10 tons/yr. (individual) per construction permit No.: 1270102-008-AC.
- c) General VE (Visible Emission) limit (less than 20 percent opacity) per Rule 62-296.320(4)(b)1., F.A.C.
- d) Facility-wide – general VOC standard per Rule 62-296.320(1)(a), F.A.C. and objectionable odor prohibited per Rule 62-296.320(2), F.A.C.

Also included in this permit are miscellaneous insignificant emission units and/or activities.

Based on the Title V Air Operation Permit Revision application received February 18, 2008, this facility is not a major source of hazardous air pollutants (HAPs).
