**COMMENTS:** In a compliance inspection conducted on 03/30/2009, AQD staff observed operations at Sendure Products, Inc. Mr. Tom Ghougasian (plant manager) accompanied staff on the inspection. The facility has one spray booth that was observed to be in good condition and filters are changed as needed. The facility paints heat exchangers/pumps. Mr. Ghougasian stated that production is down and part of the staff had recently been let go. The housekeeping was good and records were submitted for VOC usage. The facility still uses instapak for packaging.
