**COMMENTS:** In a compliance inspection conducted on 07/22/2010, AQD staff observed operations at Sendure Products Inc. The facility coats pumps/heat exchangers. Mr. Tom Ghougasian accompanied staff on the inspection. The facility has one spray booth that is in good condition and the filters were being changed at the time of the inspection. Mr. Ghougasian will be sending the VOC logs to the department. Housekeeping was good. The facility still utilizes the INSTAPAK for packing, however the chemicals utilized do not have to be considered in this permit (as reviewed in 2008).
