COMMENTS: I met with Daniel Beatty, BES LLC. Mr. Beatty was to perform compliance testing. The facility was in operation. Cement and fly-ash silos were loaded concurrently by the supply trucks. I did not note any excess emissions. Results were received by email on 6/21/2014 and the testing appeared to be compliant. According to Department records review (6/23/2014), the tests were in compliance.

Remarks: Reasonable precautions should be used to control unconfined emissions from yard traffic
