**CONCRETE BATCHING PLANT** 

## COMPLIANCE INSPECTION CHECKLIST

INSPECTION TYPE: ANNUAL (INS1, INS2) RE-INSPECTION (FUI)	COMPLAINT/DISCOVERY ARMS COMPLAINT NO:	(CI)			
AIRS ID#: 0950024 DATE: <u>3/17/06</u> A FACILITY NAME: FLORIDA ROCK/CARDER ROAD PL	A <b>rrive: <u>9:30</u></b> Lant	DEPART: <u>10:00</u>			
FACILITY LOCATION: 5109 CARDER RD ORLANDO 32802					
<b>RESPONSIBLE OFFICIAL:</b> Hugh Perry, Env. Director		904)355-1781			
CONTACT NAME: Walter Crabtree, Ops. Manager REMITTANCE YEAR: 2003 ENTITLEM	PHONE: ( ENT PERIOD: 8/28/2003 (effective date)	407)298-1900 / 8/28/2008 (end date)			
PART I: INSPECTION COMPLIANCE STATUS (check I only one box)         □ IN COMPLIANCE       □ MINOR Non-COMPLIANCE         □ SIGNIFICANT Non-COMPLIANCE					
<ul> <li>PART II: TESTING/RECORDKEEPING REQUIREMENT (check ☑ appropriate box(es))</li> <li>Stack Emissions <ol> <li>Were visible emissions tests conducted during this site 62-297, F.A.C.)?</li></ol></li></ul>	e visit according to EPA Metho nd other enclosed storage and c sions to 5 percent opacity? r exhaust points was the loadin ng rate, or at least at the minimu- tion controlled by the silo dust of s 4.a) and 4.b) below. If answer visible emissions test? rate representative of the norm n are controlled by a dust colle ests of the weigh hopper (batch	d 9 (Ref.: Chapter □Yes □ No sonveying equipment □Yes □ No g of the silo conducted Im 25 tons per hour rate, □Yes □ No collector? (If answer r is "No" then □Yes □ No al batching rate and □Yes □ No tor, which is separate her) dust collector			

PART II: <u>TESTING/RECORDKEEPING REQUIREMENTS</u> – Rule 62-296.414, F.A.C. – (continued)
(check ☑ appropriate box(es)
Compliance Demonstration - (Rule 62-296.401(5)(i), F.A.C.)         1. Is each dust collector exhaust point tested according to the visible emissions limiting standard as part of the annual compliance demonstration? (Rule 62-297.310(7)(a), F.A.C.)
New Facilities – (permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits)
2. Did this facility demonstrate:
a) initial compliance no later than 30 days after beginning operation?
b) annual compliance within 60 days prior to each anniversary of the air general permit notification form submittal date? [Yes ] No
Existing Facilities – (permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits)
3. In order to demonstrate annual compliance, was an annual visible emissions test conducted 60days prior to the AGP Notification form submission, and within 60 days prior to each anniversary date? [Yes ] No
<b>Test Reports</b> – (Rules 62-213.440, F.A.C. and 62-297.310(8)(b), F.A.C.)
4. Was the required test report filed with the department as soon as practical, but no later than 45 days after the test was completed? □Yes □No

### PART III: <u>OPERATING/RECORDKEEPING REQUIREMENTS</u> – Rule 62-210.300(4)(c)2., F.A.C.

(check ☑ appropriate box(es))	
1. Is this facility: 1) a stationary : 2) a relocatable ; or does it have: 3) both, stationary and relocatable concrete batching and/or nonmetallic mineral processing plants? ( <i>Please check I only one box.</i> )	le 🗌
<ul> <li>2. If this is a stationary concrete batching plant, is there one or more relocatable nonmetallic mineral process plants using individual air general permits at the same location? (<i>If your answer to this question is YES, then proceed to questions 2.a), thru 2.d),) below.</i>)</li></ul>	Yes No Yes No
<ul> <li>3. Does the owner/operator of the concrete batching plant maintain a log book or books to account for:</li> <li>a) fuel consumption on a monthly basis?</li> <li>b) material processed on a monthly basis?</li></ul>	□Yes □ No □Yes □ No □Yes □ No

# PART III: <u>OPERATING/RECORDKEEPING REQUIREMENTS</u> – Rule 62-296.414(2)(a) and (b), F.A.C. (continued)

(check ☑ appropriate box(es))

Unconfined Emissions – (Rule 62-296.320(4)(c), F.A.C.)

- 1. Does the owner /operator of the concrete batching plant take reasonable precautions to control unconfined emissions by:
  - a) management of roads, parking areas, stock piles, and yards, which shall include one or more of the following:

	1) paving and maintenance of roads, parking areas, stock piles, and yards?	Yes No
	2) application of water or environmentally safe dust-suppressant chemicals when necessary to	o control
	emissions?	🗌 Yes 🖾 No
	3) removal of particulate matter from roads and other paved areas under control of the owner/	operator to
	re-entrainment, and from building or work areas to reduce airborne particulate matter?	Xes No
	4) reduction of stock pile height, or installation of wind breaks to mitigate wind entrainment of	of
	particulate matter from stock piles?	Xes 🗌 No
)	) use of spray bar, chute, or partial enclosure to mitigate emissions at the drop point to the truck	? 🛛 Yes 🗌 No

Date of Inspection

August 2006

Inspector's Signature

Approximate Date of Next Inspection

**COMMENTS:** This inspection was done as a complaint investigation. OCEPD has received four dust complaints since February 9, 2006. CrushCo, a permitted rock crusher (#7775288) relocated to the site on Feb. 9, 2006 (relocation notice submitted). The crusher had created three different aggregate size piles, extending well above the fence line in the north corner of the property. The complainants live across the street from the piles and have complained about the fugitive dust emissions coming off the piles as well as the height of the piles. OCEPD has conducted several drive-bys of the facility and has not observed fugitive dust emissions leaving the property. Several areas of the yard were wet. Dust was observed from the heavy traffic within the yard but the emissions were not leaving the property.

John Kasper and Jodi Dittell met with Walter Crabtree, the operations manager, of the facility. Mr. Crabtree said they are working on the problem and had received a phone call from one of the complainants. They have sold the aggregate and are in the process of reducing the pile size but it may take more than a week to move the piles. Mr. Kasper and Ms. Dittell did observe approximately half of the smaller fine aggregate had been removed. (But the pile height was not reduced, and the part removed was not visible from the complainants' house.) The facility has also been trying to water the area, but their efforts have not been productive. The facility uses mixing trucks, not a water truck, to water the area. Mr. Crabtree said he will be looking into renting a watering truck and installing sprinklers to the back area. The facility plans to build an office in that area but first must clear another area of the yard for the aggregate. Mr. Crabtree and the area supervisor will be speaking with the complainant regarding their plans.
