COMMENTS: Visited facility and initially introduced myself to the counter person Michelé Whittle. Ms. Whittle phoned the owner, Mr. Donald Slocum at his home. Ms. Whittle let the owner know I was there then Ms. Whittle handed the phone to me. I introduced myself to Mr. Slocum and he stated he would be at the facility in about 15 minutes. Upon Mr. Slocum's arrival I introduced myself, and then I went over the Dry Cleaners Compliance Checklist with Mr. Slocum. Facilities calendars, years 2007, 2008 and 2009 were observed. Found purchases for Perc documented in the calendar although receipts for the perchloroethylene were not available during the inspection. I asked Mr. Slocum to Fax copies of the perchloroethylene receipts for 05/07/0/8, 07/13/2008, 01/14/2009, 05/21/09, 09/10/09. Mr. Slocum faxed to the office the next day. Found that documentation in calendars seemed to be complete at time of inspection. There was an entry for replacement of a heat exchanger on 08/29/2009. The heat exchanger record was available at time of inspection.

The Perchloroethylene Dry Cleaning Notification was not sent in to the EPA or the Department of Environmental Protection. Mr. Slocum filled a Perchloroethylene Dry Cleaning Notification out immediately and asked if I could take it with me and then he would send another original to EPA registered Mail, and then send a copy of returned receipt to us when he gets the return receipt back in the mail. I told Mr. Slocum I would take the Perchloroethylene Dry Cleaning Notification present this to the Department and get back to him. December 15, 2009 it was it was oked to accept the Perchloroethylene Dry Cleaning Notification form as required. -----Both issues on Field Warning Notice were corrected-----

Gave Mr. Slocum ARMs facility printout (has date GP expires on it-Let Mr. Slocum know the registration form needs to be in Tallahassee at least 30 days prior to current GP expiring), Also gave Mr. Slocum a calendar, a Perc Fact Sheet, a copy of 40CFR-63.320, a guidelines printout for handling separator water, a guide to hazardous waste in a dry cleaners and a Dry Cleaners Compliance Assistance Brochure.
