COMMENTS: In a compliance inspection conducted on 3/28/2007, AQD staff observed activities at Gulf Plating. Mr. John Richards (owner) was not on-site at the time of the inspection. However, his manager Sandy Bowman accompanied staff on the inspection. The facility is chromium electroplater who uses a wetting agent/surface tension as a control device. Housekeeping was good and AQD staff will be conducting a follow-up to receive the facilities SOCR from the owner.
