

POLYESTER RESIN PLASTIC PRODUCTS FABRICATION

COMPLIANCE INSPECTION CHECKLIST

INSPECTION TYPE: ANNUAL (INS1, INS2) COMPLAINT/DISCOVERY (CI)
 RE-INSPECTION (FUI) ARMS COMPLAINT NO: _____

AIRS ID#: 1030455 **DATE:** 9/6/2006 **ARRIVE:** 11:21 AM **DEPART:** 12:00PM
FACILITY NAME: BEACHCAT BOATS, INC.
FACILITY LOCATION: 120 Pickney Street
 OLDSMAR 34677
RESPONSIBLE OFFICIAL: ROBERT HARWOOD **PHONE:** (813)855-1413
CONTACT NAME: ROBERT HARWOOD **PHONE:** (
REMITTANCE YEAR: **ENTITLEMENT PERIOD:** 5/30/2004 / 5/30/2009
 (effective date) (end date)

PART I: INSPECTION COMPLIANCE STATUS (check only one box)

IN COMPLIANCE MINOR Non-COMPLIANCE SIGNIFICANT Non-COMPLIANCE

PART II: CONTROL TECHNOLOGY/RECORDKEEPING REQUIREMENTS – Rule 62-210.300, F.A.C.

(check appropriate box(es))

- Does the facility operate any emissions units other than the polyester resin plastic products fabrication units and emissions units which are exempt from permitting pursuant to the criteria of paragraph 62-210.300(3)(a) or (b), F.A.C., or have been exempted from permitting under Rule 62-4.040, F.A.C.? (Rule 62-210.300(3)(c)5.a., F.A.C.)----- Yes No
- Does the facility comply with the objectionable odor prohibition of subsection 62-296.320(2), F.A.C. and not cause, suffer, allow or permit the discharge of air pollutants which cause or contribute to an objectionable odor?----- Yes No
- Does the combined quantity of styrene containing resin and gel-coat used exceed 76,000 pounds (38 tons) in any consecutive twelve month period? (Chapter 62-210.300(3)(c)5.c., F.A.C.)----- Yes No
- Does the owner/operator of the facility maintain records to document the quantity of resin and gel-coat used on a monthly basis? (Chapter 62-210.300(3)(c)5.d., F.A.C.)----- Yes No
- Does the owner/operator retain, and make available for Department inspection, these records for a period of at least five years? (Chapter 62-210.300(3)(c)5.d., F.A.C.)----- Yes No
- Is this polyester resin plastic products fabrication activity subject to a volatile organic compound (VOC) Reasonably Available Control Technology (RACT) emission limiting standard of Chapter 62-296.500, F.A.C.? (Rule 62-210.300(3)(c)5.b., F.A.C.)----- Yes No

PART III: CONTROL/OPERATING/MAINTENANCE REQUIREMENTS – Rule 62-210.300, F.A.C.

(check appropriate box(es))

1. Does the owner or operator voluntarily encourage pollution prevention through such measures as training employees involved in product fabrication on methods of reducing evaporative losses by:
 - a) lessening the exposure of fresh resin surfaces to the air?----- Yes No
 - b) maintaining spray lay-up equipment to ensure effective application with a minimum of overspray? Yes No
 - c) monitoring the coating thickness to avoid excessive resin/get coat application?----- Yes No
 - d) implementing inventory control practices to prevent spillage?----- Yes No
 - e) managing cleanup solvents?----- Yes No
2. Does the owner or operator make every reasonable effort to conduct the specific activity authorized by the general permit in a manner that minimizes adverse effects on adjacent property or on public use of the adjacent property, where applicable, and on the environment, including fish, wildlife, natural resources, water quality, or air quality?----- Yes No
3. Does the owner or operator maintain the permitted facility, emission unit, or activity in good condition?-- Yes No

PART IV: SPECIAL CONDITIONS AND PROCEDURES – Rule 62-210.300(4)(d)4., F.A.C.

(check appropriate box(es))

A. New or Modified Process Equipment

1. Since the last inspection has there been
 - a) installation of any new process equipment?----- Yes No
 - b) alterations to existing process equipment without replacement?----- Yes No
 - c) replacement of existing equipment substantially different than that noted on the most recent notification form?----- Yes No
 - d) If you answered **YES** to any of the above, did the owner submit a new and complete notification form and appropriate fee (Rule 62-4.050, F.A.C.) to the appropriate DEP or local program office?----- Yes No

Approximate Date of Next Inspection

COMMENTS: Inspection Findings:

COMMENTS: The Responsible official Robert Harwood was not on site. I toured the facility with his foreman Raphael Lirando.

An upwind/downwind survey of the facility was conducted. The observed parameters were:
Downwind odor detected- Mild (1); Wind direction – Northwest Upwind odor detected- None. The styrene odor level was mild inside the facility building. There was no recent lamination of parts in process. This is open 2 structures warehouse facility. The containers were covered. The parts were drying at time of inspection The facility was in process of lamination of one beachcat boat, hull and parts. There were no other emission units observed on site. (See photos)

The records were not available at this time, Mr. Lirando stated he did not have key to access office and records. I requested he inform Mr. Harwood he would need to fax the records to the A.Q office by next day. He called him on cell phone, and I spoke to Mr. Harwood. He stated he was in new Jersey on vacation and would send fax the record log to our office when he returned. I informed the him that the records should be available at all times for the inspector, when on site.

The faxed record log was received 9/11/2006. The highest reported consecutive twelve-month total was 47,414 lbs for the month of June 2006_. The 12 month consecutive totals were reviewed records for the months of July 2004 through July 2006. The partial copy of the records is attached as an example of the record format. There were no exceedances of the 12-month limit of 76,000 lbs for the records reviewed. The permit does not expire and the facility is within permit limits for resin usage, below the 38tons/12month total. There are no changes at this time. There were no non-compliance issues observed at the time of inspection. The permit expires on 05/30/09. A new notification form would be required to be submitted no later than 03/31/09. This is non applicable at this time.

I gave Mr. Lirando the P2 brochure and pamphlet for fiberglass waste management to give to Mr. Harwood.
