**COMMENTS:** In a compliance inspection conducted on 06/22/2006, AQD staff observed activities at Harbour Towne Marina. The facility is a marina with a service pad where boat work (bottom painting and sanding) is conducted. Mr. Brad St. Coeur (yard manager) accompanied staff during the inspection. AQD staff observed workers on the service pad adhering to the BMP by utilizing tarping around boats being worked on and placing geo-textile (highly absorbent material used to collect paint shavings etc.). Mr. St. Coeur submitted paint records and VOC logs to AQD staff during the inspection. The facility is operating under their permit thresholds (9.14 VOC/day).

At the conclusion of the inspection AQD staff and Mr. St. Coeur discussed conducting an on-site training of the Marina BMP in late August, early September 2006.
