**COMMENTS:** All boxes that are blank are non applicable. The latest VE test was done in March of 2008.

I met with Steve, the plant manager and had him showed me around. I informed him that Prestige AB Management had sent us a letter stating that they will be suspending operations at this plant. He informed me that they just decided to run it as a satelite plant because business has been very slow. I informed him that they should have sent us a letter by fax or email to let us know. He said that Mike MAhoney should be sending us something soon. Everything at the plant was in good standing during our walkthrough inspection. After I left I called Mike Mahoney to confirm that he will be sending us another letter. Mike said he will be sending it soon.
