COMMENTS: In a compliance inspection conducted on 10/25/2006, AQD staff observed activities at Canal Boats, Inc. The facility has one large work bay with two 25-40 foot molds for polyester resin work. According to Mr. Burpee no work has been conducted in the past 12 months and the 55 gallon drums of polyester resin were observed to be still sealed. The facility is planning to commence work again within the next few months. Mr. Burpee will provide documentation supporting this statement.

Houskeeping and storage was observed to be excellent.
