RE: Catera Performance Boats, INC – 2930 NW 72 ST. Miami fl

On January 13, 2009 I visited the above facility in order to determine the type of activities that are conducted at the facility. I arrived on site at approximately 9:30 am and met with Mr. Jose M Agra, owner of the facility. Mr. Agra stated that his facility does cosmetic coloring to boats using gelcoat. They also use fiberglass resins. All the sanding and painting are done manually by using low pressure spray gun inside the building. At the time of inspection, I did not observe any paint booth or spray booth. Housekeeping at the facility was very good. Photographs are attached.

This boat was hand sanded for painting

This boat is ready for cosmetic painting
