A. New or Modified Process Equipment				
Since the last inspection has there been     a) installation of any new process equipment?		□Yes ⊠No		
<ul> <li>b) alterations to existing process equipment without replacement?</li> <li>c) replacement of existing equipment substantially different than that noted on the most recent notification form?</li> <li>d) If you answered YES to any of the above, did the owner submit a new and complete</li> </ul>				
	notification form and appropriate fee (Rule 62-4.050, F.A.C.) to the appropriate DEP or local program office?			
Assefa Hailemariam and Ilka Bundy 8/17/2009				
	Inspector's Name (Please Print)	Date of Inspection	_	
		~8/2010		
	Inspector's Signature	Approximate Date of Next Inspection	<del>_</del>	

**COMMENTS:** Assefa Hailemariam and Ilka Bundy met with Barbara Rama and Joe Mendoza on August 17,2009. The inspectors conducted a walkthrough inspection and records audit. This facility does construction for entertainment, TV commerials and TV sets. We observed a working shop, one enclosed spray booth, one partially-enclosed spray booth, a metal shop, wood shop, and a fiberglass area. According to Ms. Rama, the painting operation uses both water based paint and solvent based paint. Mr. Joe Mendoza provided the records 2007 to present which showed the highest conscecutive 12-month rolling total for resin and gelcoat or combined HAPs was from August 2008 with 5.58587 tons, which is less than the permit limit of 38.0 tons. The facility was in good condition. No unconfind PM,leaks or spill were observed and no objectionable odors were detected.
