COMMENTS: The facility is not utilizing the lamination press, which is the permitted emission source. Mr. Spilfogel will submit a letter to the PBCHD stating the emission source is inactive. He will provide notification if/when the source is utilized and will also provide specs/MSDS on any new materials that they decide to use as an alternative to VOC-containing adhesives. The facility is considered to be in compliance, as they are below the GP Requirements with a reported 0 lbs/yr emissions.
