**COMMENTS:** On May 2, 2009 I visited this facility to conduct an annual compliance inspection and to observe the VE test. Mrs. Dianne Mc Cloud, the facility's owner attended me. Mr. Bill Arlington from Arlington Environmental Services conducted the 60 minutes VE Test. The visible emissions test started at 12:08 P.M. The secondary chamber temperature was 1650 degrees F. The process weight was 180 pounds. Five people are certified to operate this crematories. And the certificates were available. Also the temperature graph was operational. No visible emissions were observed during the test. We observed the VE test from Henry's Auto Body at 14021 NW 22 Avenue. No objectionable odors were detected inside or outside the facility.
