\* If there are multiple pieces of the same types of process equipment (more than one silo, etc), provide an identifier (location, numeric designation, capacity or product) specific to each piece of equipment.

**Description of Facility**

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe type of concrete product(s) manufactured, all air pollutant-emitting processes, and identify any air pollution control measures used. Mobile source equipment information is not needed (eg.: trucks, bulldozers, front-end loaders, etc.)

Facility operates one central batch plant encompassing two rotary mixers, two silos and two mutli-compartment aggregate bins to produce both dry and wet concrete for our manufacturing operations. No concrete is transported off site.

A Visual Emissions Test is performed annually for all solos with results filed with Florida DEP.

Current permit was issued 12/05/2007 and expires on 12/05/2012.
