#### **Responsible Official Certification**

I, the undersigned, am the responsible official, as defined in Part II of this form, of the facility addressed in this notification. I hereby certify, based on information and belief formed after reasonable inquiry, that the statements made in this notification are true, accurate and complete. Further, I agree to operate and maintain the air pollutant emissions units and air pollution control equipment described above so as to comply with all terms and conditions of this general permit as set forth in Part II of this notification form.

I will promptly notify the Department of any changes to the information contained in this notification.

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

### NOTICE OF INELIGIBILITY TO USE AIR GENERAL PERMIT

Dear Mr. Samaniego:

This is to notify you that the Department, pursuant to your submittal received on November 14, 2008, has determined that your facility does not qualify to use the Air General Permit for a Chromium Electroplating and Anodizing facility.

The requirements that a facility must meet in order to qualify for use of the Air General Permit are set forth in Rule 62-213.300, Florida Administrative Code (F.A.C.). Your submittal indicates your facility is not eligible for the reason(s) listed below:

facility information provided is insufficient
X no equipment information provided
equipment control information is insufficient
emissions indicate facility is not eligible
source category is incorrect
certification statement is blank or not signed by Responsible Official (Owner)
other: Do not have the original signature, only a copy.

If you have any questions regarding the Department's determination, please contact Dick Dibble or Sandy Bowman at the Bureau of Air Monitoring and Mobile Sources at 850/488-0114. However, if you believe you meet the requirements for the Air General Permit, you may complete the enclosed blank notification form, making the corrections indicated above, and resubmit it to the Department. Any facility which does not qualify for the air general permit may require a standard air pollution control permit from the Department. A notice of your legal rights begins on the following page.

The DEP will consider the above-noted action final unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, Florida Statutes, (F.S.).

A person whose substantial interests are affected by the proposed decision may petition for an administrative hearing in accordance with sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) by the Agency Clerk in the DEP Office of General Counsel, MS #35, 3900 Commonwealth Boulevard, Tallahassee, FL, 32399-3000 (Telephone: 850/488-9314, Fax: 850/487-4938). Petitions filed by the permit applicant or any of the parties listed below must be filed within 14 (fourteen) days of receipt of this notice. Petitions filed by any other person must be filed within 14 (fourteen) days of receipt of notice of this proposed action. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C..

A petition that disputes the material facts on which the permitting authority's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known:
- (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- (c) A statement of how and when each petitioner received notice of the agency action or proposed action;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and,
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation will not be available in this proceeding.

In addition to the above, a person subject to regulation has a right to apply to the Department of Environmental Protection for a variance from or waiver of the requirements of particular rules, on certain conditions, under Section 120.542, F.S. The relief provided by this state statute applies only to state rules, not statutes, and not to any federal regulatory requirements. Applying for a variance or waiver does not substitute or extend the time for filing a petition for an administrative hearing or exercising any other right that a person may have in relation to the action proposed in this note.

The application for a variance or waiver is made by filing a petition with the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. The petition must specify the following information:

- (a) The name, address, and telephone number of the petitioner;
- (b) The name, address, and telephone number of the attorney or qualified representative of the petitioner, if any;
  - (c) Each rule or portion of a rule from which a variance or waiver is requested;
  - (d) The citation to the statute underlying (implemented by) the rule identified in (c) above;
  - (e) The type of action requested;
  - (f) The specific facts that would justify a variance or waiver for the petitioner;
- (g) The reason why the variance or waiver would serve the purposes of the underlying statute (implemented by the rule); and,
- (h) A statement whether the variance or waiver is permanent or temporary and, if temporary, a statement of the dates showing the duration of the variance or wavier requested.

The Department will grant a variance or waiver when the petition demonstrates both that the application of the rule would create a substantial hardship or violate principles of fairness, as each of those terms is defined in Section 120.542(2), F.S., and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Persons subject to regulation pursuant to any federally delegated or approved air program should be aware that Florida is specifically not authorized to issue variances or waivers from any requirements of any such federally delegated or approved program. The requirements of the program remain fully enforceable by the Administrator of the United States Environmental Protection Agency and by any person under the Clean Air Act unless and until the Administrator separately approves any variance or waiver in accordance with the procedures of the federal program.

Any party to this order (permit) has the right to seek judicial review of the permit pursuant to Section 120.68, F.S., by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the permitting authority in the Legal Office; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 (thirty) days from the date this Notice is filed with the Clerk of the permitting authority.

Executed in Tallahassee, Florida, this 12 day of <u>Recember</u>, 2008. STATE OF FLORIDA DEPARTMENT OF **ENVIRONMENTAL PROTECTION** Joseph Kahn, P.E., Director Division of Air Resource Management CERTIFICATE OF SERVICE The undersigned duly designated deputy agency clerk hereby certifies that this order and all copies were sent by certified mail before the close of business on to the person(s) listed: FILING AND ACKNOWLEDGMENT FILED, on this date, pursuant to section 120.52(7), Florida Statutes, with the designated agency Clerk, receipt of which is hereby acknowledged.

Mattha fine Wiso (Clerk)

Subject: Renewal of Air General Permit, AIRS ID# 1190032, Rebel Gun Refinishing, 4070 County Rd 124A Suite 3,

Wildwood, FL 34785

Dear Mr. Samaniego,

We last talked on 11/25/08 regarding the missing Page 20 of your renewal application for your Air General Permit and that without it your application is incomplete. At that time you mentioned that you were going to FAX it to me, but as of today, Wednesday, December 10, 2008, I have not received it.

Time is getting short and in order to complete the review and renewal process and avoid denying your permit I must have it before close of business this Friday, December 12, 2008.

In case you don't have a copy of the form and Page 20, I have included the links (pdf file & Word file) below which you can "click" on, download the form to your computer and print. All I need is the completed Page 20 which you can Fax to me at the FAX number listed below.

If you use the .pdf file below, Page 21 is the page (Facility Information page containing information about HARD CHROMIUM PLATING TANKS and/or DECORATIVE AND ANODIZING TANKS) which is needed:

http://www.floridadep.org/Air/forms/titlevgp/dep62\_213\_900(5).pdf

If you use the Word .doc file below, Page 20 is the page (Facility Information page containing information about HARD CHROMIUM PLATING TANKS and/or DECORATIVE AND ANODIZING TANKS) which is needed:

http://www.floridadep.org/Air/forms/titlevgp/dep62 213 900(5).doc

Thank you for your consideration and immediate attention to this matter. Call or e-mail me you have any questions.

Have a great day!

Dickson E. Dibble

Dick,

I believe we discussed this facility back in December when you received their new registration for their new location and the registration was incomplete. You were unsuccessful at contacting the owner to give him an opportunity to send in the missing information so you sent him back his registration and did not process it. Turns out, he was evicted from this new location anyway. Hope this added historical information rings a bell with you.

Danielle

Hi Dick,

How are you! We haven't talked or written in a while.

The above referenced facility is out of business and has enforcement issues that were forwarded to Tallahassee for the OIG to handle.

After the attached inspection results and speaking with Danielle about this facility, we agreed to request you change this facility to inactive.

Talk with you soon,

Joe

**To:** 'rebelgun1968@aol.com' **Subject:** Waste Disposal Issues

Dear Mr. Samaniego:

To follow up on our earlier conversation, I am letting my supervisor know of your eviction situation. If you are unable to find someone who can use your process solutions, they will have to be disposed of as hazardous waste. This includes your three drums of chrome waste, but also any acids or caustics on site which are corrosive. Your nickel solutions may also be hazardous if they contain heavy metals like chromium or cadmium that exceed the toxicity characteristic levels. It may be more cost effective to manage them as hazardous rather than pay for an analysis. This should be discussed with your disposal company.

As we discussed, I recommend immediately notifying the bankruptcy court of this situation. I understand you do not intend to abandon any materials, but do not currently have the funds to pay for disposal. Your landlord, Alan Stewart of Stewood LLC should be advised that the materials are on site, and that they may only be disposed of to a permitted hazardous waste facility. Hazardous waste may not be moved from the property except by a registered hazardous waste transporter. If he chooses, he may make these arrangements.

As you do not have an EPA identification number at your current address (4070 CR 124A, Unit 3, Wildwood), either you or he would need to obtain a temporary EPA identification number for a one-time cleanup. The form to apply for a number can be found at the link below. Either one of

you can complete the form and fax it to the FDEP Southwest District Hazardous Waste Program at 813/632-7664.

http://www.dep.state.fl.us/waste/quick\_topics/forms/documents/62-730/emergency\_ID.pdf

It may take several weeks to arrange for hazardous waste disposal. You can either ship to a permitted facility in state or use a registered transporter to ship to an out of state facility. There are a limited number of permitted facilities in Florida.

Packed Bed Scrubber/Composite Mesh Pad
Measure the pressure drop across the CMP daily Yes No
Foam Blanket Fume Suppressant
Measure the foam blanket thickness at the appropriate interval Yes No
Fume Suppressant w/ Wetting Agent
Measure the surface tension at the appropriate interval Yes No
7. Purchase records of wetting agent components Yes No N/A
8. Records of the date and time that fume suppressants are added to the bath Yes No N/A
9. Records of rectifier capacity, if used to determine facility size Yes No N/A
10. Records of the total process operating time Yes No
11. Records identifying specific periods of excess emissions Yes No
12. Startup, Shutdown & Malfunction Plan

Joseph V. Panetta/ Malik Pickering	02/12/2009
Inspector's Name (Please Print)	Date of Inspection
Inspector's Signature	Approximate Date of Next Inspection

**COMMENTS:** A FUI Inspection was conducted by Joseph V. Panetta acompanied by Malik Pickering. This is afollow up to the 10/23/2008 inspection. After the 10/23/2008 inspection our office Enforcement Coordinator Cindy Falandyz and Compliance Manager, Danielle Henry have had multiple phone conversations with Mr. Samaniego about paying fine.

During the FUI it was found that the facility is closed. Spoke with Alan Stewart (landlord) and he verified the solutions used in the chrome plating process is still in the facility. Mr. Stewart said Mr. Samaniegowill not be operating and has been talking with our Hazardus waste Section for removal of the waste causede by the process.

Returning to the office I spoke with Bob Soich of the hazardous waste section. Mr. Soich is very familiar with the situation at Rebel Gun. Mr. Soich forwrded an email (attached) from Beth Knauss (hazardous waste section) to Mr. Samaniego (R/O) and copied Jim Dregne (hazardous waste section). This email explains to R/O about removing waste from the building.

After verifing the facility is closed and Mr. Samaniego cannot be found by landlord, Hazardous Waste or our Air Section, we may consider removing this from our inspection list.

Dear Mr. Samaniego:

To follow up on our earlier conversation, I am letting my supervisor know of your eviction situation. If you are unable to find someone who can use your process solutions, they will have to be disposed of as hazardous waste. This includes your three drums of chrome waste, but also any acids or caustics on site which are corrosive. Your nickel solutions may also be hazardous if they contain heavy metals like chromium or cadmium that exceed the toxicity characteristic levels. It may be more cost effective to manage them as hazardous rather than pay for an analysis. This should be discussed with your disposal company.

As we discussed, I recommend immediately notifying the bankruptcy court of this situation. I understand you do not intend to abandon any materials, but do not currently have the funds to pay for disposal. Your landlord, Alan Stewart of Stewood LLC should be advised that the materials are on site, and that they may only be disposed of to a permitted hazardous waste facility. Hazardous waste may not be moved from the property except by a registered hazardous waste transporter. If he chooses, he may make these arrangements.

As you do not have an EPA identification number at your current address (4070 CR 124A, Unit 3, Wildwood), either you or he would need to obtain a temporary EPA identification number for a one-time cleanup. The form to apply for a number can be found at the link below. Either one of

you can complete the form and fax it to the FDEP Southwest District Hazardous Waste Program at 813/632-7664.

http://www.dep.state.fl.us/waste/quick\_topics/forms/documents/62-730/emergency\_ID.pdf

It may take several weeks to arrange for hazardous waste disposal. You can either ship to a permitted facility in state or use a registered transporter to ship to an out of state facility. There are a limited number of permitted facilities in Florida.

Clean Harbors

Commercial Hazardous Waste storage facility, solvent

170 Bartow Airport Bartow 863-533-6111 recycling, fuel blending. Company has out of state treatment, incineration facility and landfill. General Chemical Treatment and Disposal

EQ of Florida Inc. 2002 N. Orient Rd. Tampa 813-623-5302 Commercial Storage Facility General Chemical Treatment and Disposal

Perma Fix of Florida 1904 N.W. 67th Place Gainesville 1-800-365-6066 Storage facility, incineration of waste solvents and ignitables. General Chemical Treatment and Disposal

653 Rocket Blvd. Orlando 407-859-4441 General chemical treatment and disposal

You can find whether a transporter is registered by the link below.

http://appprod.dep.state.fl.us/www\_rcra/reports/CommHWTransport.asp

If you or your landlord need more information, please call me at 813/632-7600 ext 383 or you can view a number of Department publications at

http://www.dep.state.fl.us/waste/quick\_topics/publications/default.htm

Most hazardous waste program staff will be out of the office at a workshop tomorrow, but a number of us will be back in the office on Wednesday.

Date of Inspection

Inspector's Signature

Approximate Date of Next Inspection

**COMMENTS:** Inspection of facility conducted by Joseph Panetta accompanied by Malik Pickering. This inspection was prompted by previous enforcement issues and the Department needed to contact the R/O.

We went to address on this inspection form, facility no longer located there. After finding the owner of the building (he owns the hobby shop in the complex) we found the facility had moved further north. We found the chrome plating facility and spoke with R/O Kenneth Samaniego, he stated he just moved into this new facility located at 4020 CR 124A, Unit# 3, WILDWOOD - 34785 and will send in a new registration form.

A field warning notice was left with Mr. Samaniego for records not available for inspection. Mr. Samaniego stated he just moved to this facility and will send in new registration form and have records available in fifteen days. Also written on the inspection warning notice was that Mr. Samaniego stated he would pay the enforcement fine with in 15 days and He had jst moved to the facility a couple of days ago.

A registration/application form was left with for Mr. Samaniego.

# Florida Department of Environmental Protection

Southwest District Office

# FIELD WARNING NOTICE

Name / Owner / Operator: KOMEH Saman 1860 - Rebel Gan Kefinishing
Address: 4070 CR /24 A
Location / Source: Wildwad FC
Permit Number: 1903 Permit Exp. Date: 48/2012 Date and Time: 4-35 10/23/08
The purpose of this notice is to advise you of possible violations of law for which you may be responsible, and to seek your cooperation resolving the matter. Florida Department of Environmental Protection (DEP) personnel conducted a field inspection on the date listed above the location described above. Florida DEP personnel observed the following, which indicates that a violation of Florida Statutes and Rules me exist at the above described facility:  (For example, Where was the activity observed? How was it discovered? Who provided information to the inspector
Observations: 10 Accords the Aprilane for Jas perfore 10th Fifter Day From
Stated he would have records in the office in fiftee Days From the Date of this notice. MR. Summings will pay fine with fiftee Day Fromth
DATE of this notice. FACILITY CHANGES AND MOLLYING DEPARTMENT - I Left New Permit Rule or Statute Relevant to Observations Negistrate Form. Condition No.
Unconfined Particulate Matter. Rule 62-296.320(4)(c)1, Florida Administrative Code (F.A.C.), provides that no person shall cause, let, permit, suffer or allow the emission of unconfined particulate matter from any activity, without taking reasonable precautions to prevent such emissions.
Operating Without a Permit. Rule 62-210.300, F.A.C., provides that, unless exempted from permitting or unless specifically authorized, the owner or operator of any facility or emissions unit which emits or can reasonably be expected to emit any air pollutant shall obtain an appropriate permit from the Department.
Violation of Permit Condition(s). Rule 62-4.160(1), F.A.C., The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, F.S.
Objectionable Odor. Rule 62-296.320(2), F.A.C., provides that no person shall cause, suffer, allow or permit the discharge of air pollutants which cause or contribute to an objectionable odor.
Excessive Visible Emissions. Rule 62-296.320(4)(b)1., F.A.C., provides that no person shall cause, let, permit, suffer or allow to be discharged into the atmosphere the emissions of air pollutants from any activity, the density of which is equal to or greater than 20 percent opacity.
Open Burning. With few exceptions, Rule 62-296.320(3), F.A.C., prohibits open burning in connection with industrial, commercial, or municipal operations.
Constructing Without a Permit. Rule 62-4.210, F.A.C., provides that no person shall construct any installation or facility which will reasonably be expected to be a source of air or water pollution without first applying for and receiving a construction permit from the Department.
Other.
The activities observed during the Department's field inspection and any other activities at your facility that may be contributing to violations of the above-described statutes or rules should be ceased. The operation of a facility in violation of state statutes or rules may result in liability for damages and restoration, and the administrative imposition of penalties up to \$10,000.00 pursuant to Section 403.121, Florida Statutes (F.S.), of the judicial imposition of civil penalties up to \$10,000.00 per violation per day pursuant to Sections 403.141 and 403.161, F.S.  You are requested to contact  at the address or telephone number below within fifteen (15) days of receipt of the field Warning Notice. Please be advised that this Field Warning Notice is part of an agency investigation, preliminary to agency action accordance with Section 120.57(5), F.S. We look forward to your cooperation in completing the investigation and resolution of this matter.  Issued / Posted by:    Issued / Posted by:
