Re: Final National Emission Standards for Hazardous Air Pollutants (NESHAP) – Metal Can Coating

Dear Mr. Antry:

The 112(j) notification that was submitted last year for the Crown Cork & Seal Co. in Winter Garden, Florida, indicated that the facility would be subject to the NESHAP (40 CFR 63 Subpart KKKK) for Metal Can Coating. You may be interested in knowing that the USEPA published the **final** NESHAP regulation for this source category in the Federal Register on November 13, 2003. Therefore, 112(j) requirements no longer apply to metal can coating activities.

If you are interested in reading the final standards, the NESHAP and a Fact Sheet explaining the standards may be accessed through the USEPA website at <http://www.epa.gov/ttn/atw/mcan/mcanpg.html>. If you do not have access to the Internet, and would like to receive a paper copy of the final standards in the mail, please contact Mr. Bobby Bull at (850) 921-9585 or [Robert.Bull@dep.state.fl.us](mailto:Robert.Bull@dep.state.fl.us).

“Existing” affected sources must be in compliance with Subpart KKKK standards by November 13, 2006. For the purposes of Subpart KKKK, affected sources are “existing” if construction or reconstruction of the affected source commenced before January 16, 2003. For compliance dates for “new” affected sources, please refer to section 63.3483 of the standards.

Since the submitted 112(j) notification also indicated that Crown Cork & Seal Co. would be subject to Subpart DDDDD-I/C/I Boilers and Process Heaters, the facility may still be required to submit a 112(j) MACT Title V permit revision application for this subpart by April 28, 2004, unless this proposed subpart is final by then.

If you have any questions concerning this information, please contact me at (850)921-9534 or [Cindy.Phillips@dep.state.fl.us](mailto:Cindy.Phillips@dep.state.fl.us).

Sincerely,

Cindy L. Phillips, P.E., Bureau of Air Regulation

Re: 112(j) Notification Information Submittal for Winter Garden, Florida Facility

Dear Mr. Antry:

Thank you for submitting the referenced information in your letter dated May 1, 2002. Your information submittal appears to meet our current 112(j) requirements.

Please be aware that, although your letter refers to this information submittal as a "Part 1 application," the Department does not recognize your submittal as a state permit application and has no plans to process it as such.

No further 112(j) information is needed from you at this time.

If you have any questions, please call me at 850/921-9534.

Sincerely,

Cindy L. Phillips, P.E.  
Bureau of Air Regulation
